

Week 13 Assignment Final Project Phase 3 Adding Content: This assignment due 11/24/15.

The second phase of this project is to add the shop section to your website. Fulfill the following requirements:

1. Install the Woocommerce Plugin if you haven't already.
2. Add the "Shop" and "Cart" pages that are automatically created to your navigation through the Appearance>Menu section in Wordpress.
3. Go to the "Products" section on your dashboard and add 10 products. Give the products prices, inventories and variations.
4. Create 20 product photos.
 - a. 10 for the primary product photo
 - b. 10 for alternate product photos to go in the product gallery section.
 - c. YOU MUST TAKE THESE PHOTOS YOURSELF or find them as free for commercial use stock photos. Do not just steal them from Google image search.
5. Create 10 product short descriptions (approx. 25 words).
6. Create 10 product long descriptions (approx. 50 words).
7. Publish these products to your shop and format the CSS of the product pages to increase legibility and readability if necessary.

When complete with the assignment, email me a link to your final project website with the subject heading "Web Design Week 13 Project".

Also, use a backup program (updraft plus) to create a set of backup files for your website and upload them to a week 13 folder on Google Drive.

If there are no files for week 13 in your google drive, I will deduct 10% from this portion of the final project grade.

The full final project is due on the final day of class Tuesday,

December 8 8:30-10:30 am You must be here to show/critique projects that day!!
