**COM 33400 Web Design – Week 4 Assignment MICRO PROJECT PART 1 – Due MONDAY 9/21/15**

Your fourth assignment is to **create a website that explains HTML/CSS web design frameworks**. Research various frameworks such as Bootstrap and explain how these frameworks help rapid web prototyping. The site must have a minimum of 3 pages.

Steps:

1. Create a website wireframe and sitemap for each unique page layout. Place the wireframe and sitemap inside a subfolder within your web folder for this project.

2. Requirements are as follows:
3. At least 3 photos per page
4. At least 1 video per page
5. At least 80 words of body copy
6. At least 3 external links
7. Use the color palette seen below

8. Use the Toast Framework to develop a rapid prototype of your 3 pages. Download the Toast framework from the "Resources>Week 3" Folder on Google Drive, or this website:

    https://daneden.github.io/Toast/

9. When complete with the mockup, upload your file folder into the Google Drive in your folder. Be sure to create a "Week 4" sub-folder to upload the files into.
