COM 33400 Web Design – Week 10 Assignment – Due 11/3/15

Continue to use Adobe Muse to re-create the following website:

http://www.riversideartcenter.org/

Criteria:

1. Produce a sitemap and wireframe for your re-design. You may re-structure the page layout and page linkage.
2. ALL of the text and pictures must be utilized from the previous website, with the caveat of using your professional discretion to combine and re-write redundant content.
3. The layout must look contemporary. Check out the following site as an example:

    http://www.foundryartcentre.org/

4. You must create a parallax scroll effect on one of the pages.
5. You must use muse widgets, both onboard and downloaded from the web on at least 3 pages.

When complete, export your files as HTML and load them onto your biz.nf web server / load them into a folder on your google drive.
